Architecture of KWin Core

Agenda

Architecture

What's new in 5.0

What's new in 5.1 and beyond

Qt5 was difficult!

New Wayland features

Features in 5.0

- ▶ Binary renamed to kwin_x11
- ▶ QPainter based Compositor backend
- ▶ XRender Compositor supports Wayland
- ▶ Better detection on when KWin should use Wayland
- ▶ Compositing gets enforced in Wayland mode
- ▶ Input redirection module

Agenda

Architecture

What's new in 5.0

What's new in 5.1 and beyond

Features for 5.1

Already in master

- ▶ New binary `kwin_wayland`
- ▶ Starting nested X Server
- ▶ Wayland client connection hold in a dedicated thread
- ▶ Support for Fullscreen Shell in Client mode

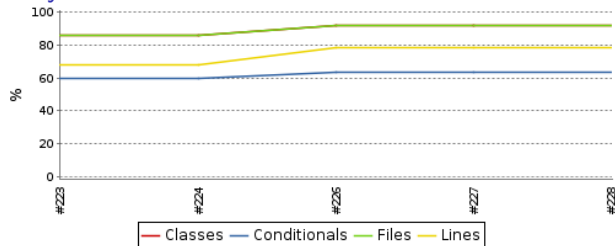

Server module

- ▶ Headless
- ▶ Used in auto tests of Wayland Client code

Test Coverage of New Code

Wayland Client Module

Wayland Server Module

Unfinished Features for 5.1

In the Pipeline

- ▶ Start a Wayland Server
- ▶ Rendering to one Surface per Output
- ▶ libinput integration

More work needed!
