The KDE Telemetry Policy

~~Can we please finish this?~~ It's finally done!

Akademy 2018

Volker Krause

vkrause@kde.org
@VolkerKrause

- Akademy 2017
  - KUserFeedback
  - We need clear rules before deploying this
- \<insert extensive discussion\>
- community.kde.org: Telemetry Policy

Key Elements

- Be transparent on what data is submitted

- Give the user control over what to submit

- Do not use unique identifiers

- Do not transmit any content-related data

- Only use KDE controlled infrastructure

- Wide access to the collected data

KUserFeedback

- Designed for compliance with the KDE Telemetry Policy (but can be misused)

- Updated to address feedback from the policy discussion

    – Audit log

    – Global kill switch

    – Operational concerns from sysadmins

Let's finally use this :)
