Do Not Disturb

- Since Plasma 5.16

- For 1 hour, 4 hours, next morning, …

- Global shortcut (5.19)

- Middle-click icon (5.20)

What about screen sharing?

Notifications · Do Not Disturb

- *Inhibit* DBus API

- github.com/kbroulik/obs-fdo-notifications-dnd

Can we do better?

Notifications · Do Not Disturb

- Flag some "recording tools" window?

- KWin scripting?

Food for thought

Food for thought 1/2

- Mouse click effect

- Magnifying glass

- "Laser pointer" / highlighter

- Draw annotations

Food for thought 2/2

- Open new windows on non-shared screen

- Flag "confidential" windows
  - – or render only certain windows
  - – Hide desktop window / neutral wallpaper
